

# ZOMBIE EXTEND-O-JAWS

Take a bite out of victims up to three feet away!

I started with a "Robot Arm" I purchased for \$5.00. I fashioned the teeth and gums with Sculpy and epoxied the teeth onto the red clamps.

I covered the whole thing with sheets of liquid latex that I dried on a table. I kept the latex loose so the jaws could snap open and shut.

Add a little blood and it's perfect!
